EVIDENTIARY BUNDLE

NOTICE OF LIABILITY
PRE-EXISTING LIBERTY — PERSONAL
CAPACITY

Service record, acknowledgements, and chain of custody

Transmitted April 18, 2026 A.D., 20:14:58 Eastern Daylight Time
Compiled April 20, 2026 A.D.

AFFIANT

Name: [AFFIANT]
Capacity: Natural person, citoyen de droit, Heir by lineage, ligeantia naturalis
Jurisdiction: Province of Ontario
Transmitting address: [AFFIANT EMAIL]

RECIPIENTS SERVED

Justice Canada (MCU): mcu@justice.gc.ca
MP Sean Fraser: sean.fraser@parl.gc.ca
RCMP Commissioner (Duheme): michael.duheme@rcmp-grc.gc.ca
RCMP Commissioner's office: commissioner@rcmp-grc.gc.ca

INDEX OF DOCUMENTS

Tab	Document	Purpose
-----	----------	---------

EVIDENCE

A	Email Transmission Record email-print.pdf	Printable record of the outbound email of April 18, 2026 20:14:58 EDT — full headers as preserved by the sending client, body text, and SHA-256 of the source .mbox.
B	Notice of Liability (Instrument) notice_liability_v17.pdf	The attached instrument served upon the four addressees; extracted verbatim from the outbound email's MIME payload.
C	Proof of Service — Auto-Reply #1 (Justice Canada) reply-mcu-print.pdf	Automated acknowledgement from mcu@justice.gc.ca, received +29 s after transmission. SPF + DKIM (d=justice.gc.ca) + DMARC PASS. Cites parent Message-ID.
D	Proof of Service — Auto-Reply #2 (MP Sean Fraser) reply-fraser-print.pdf	Automated acknowledgement from Sean.Fraser@parl.gc.ca, received +26 s after transmission. SPF + two independent DKIM signatures + DMARC (p=reject) PASS. <i>In-Reply-To</i> cites same parent Message-ID.
E	Chain of Custody & Linkage chain-of-custody-print.pdf	Evidentiary analysis linking Tabs A, C and D: shared server-assigned parent Message-ID, subject-line echo, address correspondence, temporal proximity, and cryptographic authentication. Includes affirmation.

BASIS OF SERVICE

Service at the four Crown and parliamentary addresses is effected upon transmission to the addressee's published official email address. The automated acknowledgements at Tabs C and D are corroborative, not constitutive, of service. Service at the two RCMP addresses (Tab A) is therefore effected notwithstanding the absence of any returning acknowledgement from those mailboxes.

EVIDENCE

Affirmation. I, [AFFIANT], of the Province of Ontario, affirm that I caused the email described at Tab A to be transmitted on the date and at the time stated, to the addresses listed; that the attached instrument at Tab B is a true and complete copy of the attachment then transmitted; that the acknowledgements at Tabs C and D were received by me from the mailboxes indicated; and that the SHA-256 values set out in each Tab and at Tab E were computed by me from the preserved source files.

[AFFIANT] — _____, 2026 A.D.

Dated in the Province of Ontario. All timestamps UTC except where expressly marked EDT/EST. Jurisdictional reservation: the abbreviation A.D. on each page denotes common-law date reckoning.

BODY (PLAIN-TEXT PART, VERBATIM)

Thank you for writing to the Minister of Justice and Attorney General of Canada.

Due to the volume of correspondence addressed to the Minister, please note that there may be a delay in processing your email. Rest assured that your message will be carefully reviewed.

We do not respond to correspondence that contains offensive language.

EVIDENCE

Merci d'avoir écrit au ministre de la Justice et procureur général du Canada.

En raison du volume de correspondance adressée au ministre, veuillez prendre note qu'il pourrait y avoir un retard dans le traitement de votre courriel. Nous tenons à vous assurer que votre message sera lu avec soin.

Nous ne répondons pas à la correspondance contenant un langage offensant.

Evidentiary significance: this auto-reply confirms that the mailbox **mcu@justice.gc.ca** (Ministerial Correspondence Unit, Justice Canada) received and processed the NOTICE OF LIABILITY transmitted on April 18, 2026 20:14:58 -0400. The parent Message-ID references the original sent message as rewritten by the Outlook submission server. Authentication (SPF/DKIM/DMARC) passes cryptographically verify the reply originated from Government of Canada mail infrastructure.

BODY (PLAIN-TEXT PART, VERBATIM, DECODED FROM BASE64)

Thank you for your contacting the constituency office of Sean Fraser, Member of Parliament for Central Nova.

This is an automated reply.

Please note that all correspondence is read, however due to the high volume of emails we receive on a daily basis there may be a delay in getting back to you. Priority will be given to residents of Central Nova.

To ensure we get back to you in a timely manner, **please include your full name, home address including postal code and phone number** when reaching out.

Thank you.

Merci d'avoir contacté le bureau de circonscription de Sean Fraser, député de Central Nova. Il s'agit d'une réponse automatisée.

Veillez noter que toute la correspondance est lue, mais qu'en raison du volume élevé de courriels que nous recevons quotidiennement, il se peut que nous ne puissions pas vous répondre dans les meilleurs délais.

Pour que nous puissions vous répondre dans les meilleurs délais, **veuillez indiquer votre nom complet, votre adresse personnelle, y compris le code postal, et votre numéro de téléphone** lorsque vous nous contactez.

Nous vous remercions.

Evidentiary significance: this auto-reply confirms that the mailbox **Sean.Fraser@parl.gc.ca** (Member of Parliament, Central Nova) received and processed the NOTICE OF LIABILITY transmitted on April 18, 2026 20:14:58 -0400. The *In-Reply-To* and *References* headers explicitly cite the original message's server-assigned Message-ID — the same ID also cited by Justice Canada's auto-reply, establishing both replies originate from the same transmission. Authentication (SPF + two independent DKIM signatures + DMARC under p=reject) cryptographically verifies the reply originated from Parliament of Canada mail infrastructure (House of Commons Cisco IronPort gateway).

EVIDENCE

CHAIN OF CUSTODY & LINKAGE RECORD

Connecting the outbound transmission of NOTICE OF LIABILITY — PRE-EXISTING LIBERTY — PERSONAL CAPACITY (April 18, 2026 20:14:58 EDT) to the two governmental auto-replies received within 30 seconds of transmission.

1. SUMMARY OF EVIDENTIARY POSITION

On April 18, 2026 at 20:14:58 Eastern Daylight Time (00:14:58 UTC on April 19), the Affiant transmitted a NOTICE OF LIABILITY with an attached PDF instrument (`notice_liability_v17.pdf`, SHA-256 below) to four Crown/parliamentary email addresses. At common law and under modern electronic-service doctrine, a communication addressed to the published official address of a Crown servant or Member of Parliament is delivered upon transmission; the existence of a returning acknowledgement is corroborative, not constitutive, of service.

Two automated acknowledgements were nonetheless received from two of the four addressees within a 26–29 second window, providing independent technical corroboration that the Notice entered the recipients' mail systems and was processed by their mailbox rule agents.

2. TRANSMISSION AND ACKNOWLEDGEMENT TIMELINE (UTC)

- 2026-04-19 00:14:58** — Outbound transmission: **[AFFIANT EMAIL]** → (`sean.fraser@parl.gc.ca`; `mcu@justice.gc.ca`; `michael.duheme@rcmp-grc.gc.ca`; `commissioner@rcmp-grc.gc.ca`). Subject: *NOTICE OF LIABILITY — PRE-EXISTING LIBERTY — PERSONAL CAPACITY - APRIL 18, 2026 20:15 EST - A.D.*
- 2026-04-19 00:15:24** (+26 s) — Auto-reply composed at parliamentary tenant `YQBPR0101MB4618.CANPRD01.PROD.OUTLOOK.COM` on behalf of **Sean.Fraser@parl.gc.ca**.
- 2026-04-19 00:15:27** (+29 s) — Auto-reply composed at Justice Canada tenant `YT3PR01MB8785.CANPRD01.PROD.OUTLOOK.COM` on behalf of **mcu@justice.gc.ca**.
- 2026-04-19 00:15:35** — Justice Canada auto-reply delivered to Affiant's Outlook mailbox.
- 2026-04-19 00:15:43** — Sean Fraser auto-reply delivered to Affiant's Outlook mailbox.

3. FOUR INDEPENDENT LINKING FACTORS

3.1 SHARED PARENT MESSAGE-ID

Both auto-replies independently reference, as the message to which they are replying, the server-assigned Message-ID:

`<SJ0PR19MB6751301D1DB9A82A262879A2E92E2@SJ0PR19MB6751.namprd19.prod.outlook.com>`

The prefix `SJ0PR19MB6751` identifies the Affiant's own Microsoft 365 mailbox server. This Message-ID could only have been assigned by that server at the moment it processed the Affiant's outbound submission. That two independent external mail systems (House of Commons IronPort via `parl.gc.ca`; Justice Canada tenant via `justice.gc.ca`) both cite the identical server-assigned Message-ID is cryptographically-strong proof that both received and processed the same outbound submission.

EVIDENCE

Acknowledgement	Header	Value
MCU / Justice Canada	x-ms-exchange-parent-message-id	<SJ0PR19MB6751301D1DB9A82A262879A2E92E2@SJ0PR19MB6751.namprd19.prod.outlook.com>
MP Sean Fraser	In-Reply-To / References	<SJ0PR19MB6751301D1DB9A82A262879A2E92E2@SJ0PR19MB6751.namprd19.prod.outlook.com>

3.2 SUBJECT-LINE ECHO

The Sean Fraser auto-reply carries the subject line *"Automatic reply: NOTICE OF LIABILITY — PRE-EXISTING LIBERTY — PERSONAL CAPACITY - APRIL 18, 2026 20:15 EST - A.D."* — i.e., the literal prefix "Automatic reply: " concatenated with the Affiant's exact outbound subject. The Justice Canada auto-reply uses a generic subject ("Automatic Reply") but its x-ms-exchange-parent-message-id header closes the link (§ 3.1).

3.3 ADDRESSING CORRESPONDENCE

Outbound To: (April 18)	Inbound From: (April 19)	Match
sean.fraser@parl.gc.ca	Sean.Fraser@parl.gc.ca	YES — case-insensitive
mcu@justice.gc.ca	mcu@justice.gc.ca	YES
michael.duheme@rcmp-grc.gc.ca	— (no auto-reply)	Service still effected by transmission
commissioner@rcmp-grc.gc.ca	— (no auto-reply)	Service still effected by transmission

3.4 TEMPORAL PROXIMITY

Both auto-replies were generated within 29 seconds of the outbound submission and delivered to the Affiant's mailbox within 45 seconds. This tight window is consistent only with automated Inbox-rule processing of a single, genuine incoming message — not with any later fabrication or replay.

4. CRYPTOGRAPHIC AUTHENTICATION OF THE AUTO-REPLIES

Each acknowledgement bears Microsoft 365 authentication results confirming the reply originated from its purported Crown mail infrastructure. These were evaluated automatically on delivery:

Check	MCU / Justice Canada	MP Sean Fraser
SPF	PASS (52.101.189.130 authorised for justice.gc.ca)	PASS (216.71.130.254, esa2.hc650-42.ca.iphmx.com, authorised via parl.gc.ca)
DKIM	PASS (d=justice.gc.ca, s=selector1)	PASS × 2 (d=parl.gc.ca s=HoC.Selector2; d=HoCCDC.onmicrosoft.com s=selector1)
DMARC	PASS (p=none)	PASS (p=reject — strict)
ARC	PASS (Microsoft arcselector10001, cv=pass)	PASS (Microsoft arcselector10001, cv=pass)
compauth	pass, reason=100	pass, reason=100

EVIDENCE

5. NOTE ON THE SENDER-SIDE MESSAGE-ID

The Sent-folder copy preserved by Outlook.com for this transmission carries only the client-generated Message-ID <12ab642cf7038bb07b06400b6e698ed26ceb6295.camel@outlook.com> — i.e., the identifier assigned by the Affiant's MUA (Evolution 3.60.0) before submission. Outlook.com's Sent folder stores the pre-submission form and does not surface the server-assigned Message-ID or the outbound DKIM signature applied by the outlook.com MTA.

This is an artefact of Microsoft's Sent-folder retention design and does not diminish the linkage: the server-assigned Message-ID cited in § 3.1 is independently attested by two external Crown mail systems, and its structural prefix conclusively identifies the Affiant's Outlook mailbox server as its point of origin.

6. FILE INTEGRITY (SHA-256)

Artefact	Bytes	SHA-256
NOTICE OF LIABILITY — PRE-EXISTING LIBERTY — PERSONAL CAPACITY - APRIL 18, 2026 20:15 EST - A.D..mbox (sent, local mbox)	137,763	f792dd2cfcdfb2b7503bb071e9c4535137e758bc560bef2f9b03b272e57ded65
NOTICE OF LIABILITYeml (sent, outlook.com Sent-folder export)	137,711	4113a2e17d6dadf184729f4fa6cf49765eda9d3e66a88bc9c2bfa9fe6790987c
Automatic Reply.mbox (MCU / Justice Canada)	19,440	51f42d2179420fc1fb67c09feeb73198901cde1a6fdd789ddba92d0dc83c6780
Automatic reply: NOTICE OF LIABILITYmbox (MP Sean Fraser)	25,912	ff784ad8be2c680a27aeb621e8f18c73840a0b526e394af2387d1dbf4ca89aa2
Automatic reply_ NOTICE OF LIABILITYeml (MP Sean Fraser, outlook.com export)	25,859	b57f4a00301b03822007b367c38eac7cd8d8cdd3bf562eff3b2a5bbe59fb3664

The outlook.com .eml and the local .mbox of the outbound NOTICE are byte-identical except for the 52-byte "From " envelope line prepended by the local mbox format — i.e., they represent the identical message payload stored in two formats.

EVIDENCE

7. CONCLUSION

Transmission of the NOTICE OF LIABILITY to all four named Crown/parliamentary addresses on April 18, 2026 at 20:14:58 EDT is established by the Affiant's direct records. Service at the two addresses that produced automated acknowledgements (mcu@justice.gc.ca; Sean.Fraser@parl.gc.ca) is further corroborated by:

1. Two independent SPF/DKIM/DMARC-authenticated acknowledgements received within 45 seconds of transmission;
2. Both acknowledgements citing an identical server-assigned Message-ID structurally originating from the Affiant's own Outlook mailbox server;
3. A literal subject-line echo in the Fraser acknowledgement;
4. Exact address correspondence between outbound To-list and inbound From-addresses.

Service at the two RCMP addresses (michael.duheme@rcmp-grc.gc.ca; commissioner@rcmp-grc.gc.ca) is established on the same basis as to transmission, with the rule that delivery to an official published address of a Crown officer constitutes service upon transmission.

Affirmation. I, [AFFIANT], of the Province of Ontario, affirm that the facts set out above are within my personal knowledge and are true, and that the hash values above were computed by me from the preserved source files identified.

[AFFIANT] — _____ , 2026
